Let's talk about courage,
and why we need it more than ever.

Courage is independent and disruptive.
Courage questions, shatters and awakens.

We need bold, courageous voices.
All of us.
We need fresh thinkers with optimism.

We believe in the frontrunners.
The avantgarde, those who fight stagnation
and backwardness.

Courage only knows moving forward.
Driving the pioneers of our culture
to inspire tomorrow.

To create a sublime kind of new.
Reaching a superior level of excellence.

This is where a
new kind of luxury is born.

EMOTIONS CANNOT BE
TRAINED, NOR FORCED.
EMOTIONS ARE ROUSED –
BY A PLAY OF LIGHT AND
SHADOW, OF LINES
AND SURFACES.

WHO LOOKS FOR FREEDOM,
LEAVES BEHIND WHAT IS OLD.
WHO DARES, EXCEEDS LIMITS,
WITHOUT LOOKING BACK.
BECAUSE FORWARD DRIVE
IS AN ATTITUDE.

UNBUNDLED,
UNCOMPLICATED,
INDEPENDENT – WITH
THE RIGHT ATTITUDE,
EXPECTATIONS
ARE ONLY
STARTING LINES.

IT IS THE ATTENTION TO
THE SPECIAL THAT IMPARTS
PERFECTION TO EVERYTHING.
THE LOVE FOR DETAIL:
THE EPITOME OF PERFECTION.

SINCERITY IS NOT
MEASURED BY OPINIONS. BUT BY
THE ABILITY TO GET YOURSELF
EXCITED. BY DESIGN.
BY MATERIAL. BY THE MOMENT.

CULTIVATED POWER.
ELEGANT PRECISION.
EUPHORIA THAT
OUTSHINES
EVERYTHING.

LUXURY MUST AROUSE EMOTIONS.

Searching and finding modern perfection: Adrian van Hooydonk, chief designer at the BMW Group, on the new appearance in the segment of the most exclusive vehicles.

The models under the name Bayerische Motoren Werke open up a new world within the BMW portfolio. What is your idea of contemporary luxury?

We do not want to tell our customers how they should define luxury for themselves, but just want to make an attractive, diverse offer. The perception of luxury is very different worldwide. But a central aspect that becomes visible everywhere is the increasing significance of personal time. It is becoming the most valuable asset in a globalised world.

How is the wish for perfection and refinement expressed in mobility?

In today's mobile world, we spend more and more time in various modes of transport. Cars are now like personal rooms on wheels. One wants to feel completely comfortable in them. A steering wheel that you touch, the materials

that surround you have to feel perfect and the eye does not want to be disturbed by unclear lines or individual components. The interior of a vehicle is seen as a living space. It is about being surrounded by the highest possible sensuous quality.

What is the biggest challenge in the external appearance?

Luxury must be reflected to the outside world in a matter-of-fact way. There is a beautiful term for it: sophistication. For designers – our team has more than 700 employees at four locations worldwide, who are encouraged through constant competition with each other in terms of ideas – this means that every detail counts. The design has to arouse strong emotions while expressing the highest quality and durability at the same time. In order to be able to spend every moment intensely, full of meaning and beauty. Therefore, we are building a luxury ecosystem, a model family. In various forms of expression: contemporary saloons, elegant and very sporty coupés, but also vehicles that offer very luxurious space.

In the new designs, a common factor is noticeable: the reduction of lines. Do you want to increase luxury by making luxury less apparent in the design?

In this way, the design becomes clearer, more modern and more emotional. An expressive surface play is in the foreground, and the dynamics are emphasised even more than before by the vehicle body. The few but very precise vehicle lines underline the graphic design of the surfaces. The vehicle body looks more powerful, refined and luscious with the lavish surfaces without losing the sportiness that is typical to BMW. This is possible only because we work out every feature of a vehicle individually. For a BMW, one should be able to identify at first glance what kind of experience one would have with it. Especially in our large and particularly luxurious vehicles, we attach great importance to a marked appearance and the maximum possible feel-good factor in the interior. It's about freedom – and the feeling of being at home in a BMW.

THE EXTERIOR DESIGN.

Dynamic elegance, open to the top: The exterior design of the BMW 8 Series Convertible combines sportiness, exclusive style and that certain something to create a charming overall appearance. Inspired by the BMW 8 Series Coupé, it combines its racing DNA with its very own, perfectly shaped character. Starting with the fascinating curve of the headlights through the flowing silhouette to the finale of the flat rear lights that underline the width: Everything on the BMW 8 Series Convertible makes you want the exhilarating feeling of freedom that makes every journey a unique experience.

SPORTY PRESENCE, FROM EVERY PERSPECTIVE: THE WIDE REAR.

The rear of the vehicle appears remarkably wide and powerful, which is particularly impressive when the softtop is open. The third rear light, which is integrated into the boot lid, also reduces the height effect visually and closes the rear harmoniously upwards.

THE BMW 8 SERIES CONVERTIBLE, WITH ITS ELONGATED SHAPE, LOOKS CAPTIVATING IN THE SIDE VIEW BOTH WHEN CLOSED AND OPEN. THE COMPACTLY CUT SOFTTOP CREATES A STRIKING, DISTINCT NOTCHBACK SILHOUETTE.

A VOYAGE OF DISCOVERY FOR THE EYE: DESIGN LINES.

Reduced, precise lines and an expressive surface play behind the rear tyres characterise the side view. Instead of the BMW typical bead line, two expressively drawn design lines characterise the picture: Based on the precisely crafted Air Breathers they draw the course of the airflow along the body and thus pay homage to power and speed.

FREEDOM AT THE PUSH OF A BUTTON: THE INNOVATIVE SOFTTOP.

Thanks to the new clamp technology, the black Softtop blends harmoniously into the dynamic lines of the vehicle. At the push of a button, it opens and closes electrically in approximately 15 seconds, even while driving at speeds of up to 50 km/h. One of the outstanding properties of this extremely high-quality softtop is its excellent noise insulation.

DESIGN THINKING.

Open to new experiences: Why the softtop reveals so much about the character of the BMW 8 Series Convertible.

There are actually no two opinions: The heart of a vehicle is its engine. And yet the look on the exterior allows much more than insights into the design and presence of an automobile. This is especially true for a model like the BMW 8 Series Convertible. Because the most important characteristic feature – the softtop – combines the luxury and innovation claims of the entire model.

Opening the softtop already feels like a staging experience: Completely without any noise and with precise movements, the softtop is folded and retracted under the softtop flap in leather look with decorative stitching. The movement resembles a carefully rehearsed choreography and takes place at a speed of up to 50 km/h in exactly 15 seconds. The complete softtop with the haptic, unique fabric lined in several layers weighs much less than previous designs, and it can be folded into the variable compartment in the boot in a particularly space-saving manner.

EVEN WITH THE SOFTTOP CLOSED, THE BMW 8 SERIES CONVERTIBLE FASCINATES WITH ITS FLOWING, ELONGATED SILHOUETTE.

The design follows a clear premise: The softtop underlines the sporty silhouette and the powerfully elegant lines of the BMW 8 Series. For a model with outstanding performance characteristics, it is not just a question of shape, nor just a question of material and technology innovation. It is all about performance, closed as well as when open: The instant, highly dynamic driving pleasure.

THE SOFTTOP IS FOLDED AND RETRACTED COMPLETELY WITHOUT ANY NOISE AND WITH PRECISE MOVEMENTS.

The result is also interior acoustics as in a coupé. The gentle, wind-swept silhouette creates an exceptionally comfortable driving experience – even at higher speeds. Luxurious sound scenery even when closed: The multi-layer design absorbs sound waves better than many fixed roof structures. An extremely low noise level for all passengers.

Exceptional design, uncompromising technology, luxurious ambience: Additional comfort features increase the pleasure of driving with the top down in the BMW 8 Series Convertible at all temperatures: The Air collar¹ releases warm air when needed around the front headrests and takes care of passengers' necks on cool days. The experience is made even more pleasant with heated armrests¹ in the door and centre console as well as a heated steering wheel.¹ Pure enjoyment of driving with the top down, regardless of weather and speeds – in the BMW 8 Series Convertible.

¹ Available as optional equipment.

The perfect interplay between these individual elements creates a new, particularly luxurious form of driving with the roof down: The BMW 8 Series Convertible provides not just instant enjoyment of openness and freedom, but a pleasure for all the senses.

OPEN UP NOW!

Skyscrapers, hideaways, convertibles: There is simply more to discover if we show ourselves openly. A tribute to the luxury of not having the roof at the right moment.

THE DESIRE FOR OPENNESS IS THE FREEDOM TO ENJOY A BROAD VIEW – THIS ATTITUDE IS SEEN EVEN IN THE HOMES WE BUILD.

These are exciting times. Never before has it been so easy to reach the unattainable, we can travel to the most remote places, experience unforgettable moments in the everyday here and now. The hunt for these moments is what drives us in life. To get rid of the superfluous, to take the liberty to get even more out of a situation. Set the personal viewing angle to panorama mode. At the touch of a button, you can feel the distance when the sky opens over the BMW 8 Series Convertible – much more than the mere interplay of finely tuned technology. It is an expression of being able to overcome boundaries. If we really aspire to it.

The new enthusiasm for this boundless freedom is evident in many areas. In luxury fashion, in haute cuisine, in architecture. Modern architects such as Jean Nouvel or the Japanese Pritzker prizewinner Shigeru Ban – known for his imposing, airy constructions – are currently creating spectacular buildings that have one thing in common: extremely transparent, opening roofs. Or they'll leave it out altogether. The sky as a roof. This new openness is no coincidence.

Spectacularly designed rooftops are the symbol for the reinterpretation of urban space. Long forgotten places of architecture – even some of the most spectacular buildings of the 20th century, such as the Guggenheim Museum in New York, did not

include large roof terraces. Today it's good manners for buildings to show themselves openly. There is evidence in every metropolis, from the many rooftop bars of East London to the spectacular roof terrace of the Mandarin Oriental in Barcelona. And some of the most interesting resorts and hideaways of this time completely do without the roof in their suites and place the perfect beds right on the floor – like in the middle of the Utah desert surrounded by violet shining canyons in the sunset. Or the Sky Suites of the AKA Central Park Hotel, downtown Manhattan, high above mountain village Goodman and MoMa. Sleep with maximum comfort in the open air – in the middle of the metropolis or in the middle of the wilderness.

OPENING THE SPACE ABOVE US IS NOT AN ESCAPE. IT IS AN ADVENTURE.

The common denominator is the basic idea that freedom and luxury can only be really felt and experienced when the world is open to you. It is the reason why convertibles fit so well into this time. Every trip in a BMW 8 Series Convertible gives you the feeling of being closer to the elements: to the air, to the sun. In combination with an absolute demand for performance and luxury. In the BMW 8 Series this means, for example: Ambient light and extremely high-quality glass applications in the interior. Exclusivity finds its absolute counterpart here. But the luxury of openness is also transformed in the BMW 8 Series Convertible from a quiet experience into an offensive one. It's the doubling of a trend. Supplemented by the speed factor.

Opening the space above us is not an escape. It's an adventure. The view upwards straightens the situation again, it shows: In the end, it's all about spending your time the way you want – not the way you have to. The fact that you can get much more out of this adventure at any time while driving opens up completely new dimensions. Long live freedom.

SPORTINESS, EXPRESSED IN ELEGANCE.

Freedom to the horizon: The interior reflects the extroverted sporty yet characteristically elegant character of the BMW 8 Series Convertible: Its consistent driver orientation is just as impressive as its sophisticated details, such as individually foldable rear seats for extended and even more flexible use of the luggage compartment. At the same time, remarkable design details such as the harmonious interior lighting or sparkling glass applications¹ on selected control elements create an atmosphere that spreads elegance and extravagance. The BMW 8 Series Convertible unfolds a unique world of dynamic luxury that fascinates anew every time you drive.

COMFORT IS THE BEGINNING OF ENJOYMENT: AIR COLLAR.

The Air collar¹ integrated in the height-adjustable front headrests ensures a pleasant climate even on cold days when driving with the top open thanks to a three-stage adjustable warm airflow.

ALSO LUXURY CAN BE EXPANDED: LEATHER 'MERINO' WITH EXTENDED CONTENTS.

The leather of the BMW Individual extended leather trim 'Merino'^{1,2,*} is already meticulously selected in the raw material selection, so that only absolutely flawless quality is used. It is completely dyed through without artificial embossing or surface treatment and immediately makes the highest demands on the interior feel-able and visible.

A HIGH-QUALITY GENUINE LEATHER LOOP ON THE BACK OF THE DRIVER AND FRONT PASSENGER SEATS ALLOWS THEM TO BE FOLDED FORWARD QUICKLY AND COMFORTABLY.

SPORTINESS, SUPPLEMENTED BY LUXURY – THE INTERIOR ALLOWS A DEEP INSIGHT INTO THE CHARACTER OF THE BMW 8 SERIES CONVERTIBLE.

AT THE CENTRE OF ATTENTION: DRIVER ORIENTATION.

In the cockpit of the BMW 8 Series Convertible, everything is aligned to the driver. Each control element is ergonomically placed exactly where it can be optimally reached. In that way, the driver has everything under control and can completely focus on the most important thing: absolute driving pleasure.

THE HEART OF PERFORMANCE:
THE BMW TWIN POWER TURBO 8-CYLINDER PETROL ENGINE.

The intelligent BMW xDrive all-wheel drive system with rear-wheel orientation provides permanent traction in all situations – because it distributes the drive torque fully variably to the axles before a wheel starts spinning. Despite the high-traction all-wheel drive, the driver of the BMW 8 Series Convertible does not need to do without the agility and precision of a rear-wheel drive vehicle: When cornering up to the vertex, the drive torque on the front wheels is significantly reduced, resulting in optimal feedback to the steering. When accelerating out of the curve, BMW xDrive transmits successive power to the front wheels, so that optimum traction is always created. The result of this power delivery is that the BMW 8 Series Convertible is practically catapulted into the subsequent straight.

MAXIMUM TRACTION BETWEEN CURVE AND STRAIGHT:
THE M SPORT DIFFERENTIAL.

Sportily into the curve – and just as sportily out of it: The M Sport differential^{1,2,*} of the BMW M850i xDrive Convertible, in combination with BMW xDrive, ensures maximum traction even in the case of dynamic driving and challenging routing. The result: excellent driving stability, even on demanding turns and in every road condition.

AT HOME ON THE RACE TRACK:
THE BMW 8 SERIES CONVERTIBLE
CONCEPTS HAVE COME DIRECTLY
FROM RACING EXPERIENCE.

RACING GENES MEET LOVE OF FREEDOM.

Ambitious. Independent. Thoroughly sporty. The racing genes that make this vehicle so unique can be felt in the BMW 8 Series Convertible right from the first few metres: The standard Adaptive M suspension lets you choose between dynamic or comfortable suspension tuning and ensures maximum control in every driving situation. Along with the specially-tuned BMW xDrive all-wheel drive and the regulated M Sport differential^{1,2,*}, maximum traction and maximum agility are offered even when accelerating out of corners. Here, Integral Active Steering^{1,2,*} provides additional stability without losing any dynamics at all and guarantees perfect steering and maximum speed confidence in every speed range – and it is a good thing, because the high body rigidity and the strengthened suspension components ensure a thrillingly direct implementation of each steering command. And if the brakes are used, the 19" M Sport brake^{1,2,*} delivers precisely controlled braking performance, which, in combination with the standard mixed performance tyres, ensures reliable deceleration. That is what freedom feels like!

CONFIDENT THROUGH EVERY CURVE – AT ANY SPEED:
ADAPTIVE M SUSPENSION PROFESSIONAL.

Highly agile, extremely comfortable: The Adaptive M suspension Professional^{2,*} combines typical dynamics with smoothness and stability. The electromechanical body roll stabilisation reduces the lateral inclination on the curves and thus enables very high cornering speeds. Depending on the situation, it distinguishes between a stabilising or agile driving behaviour. Thus, the driver can enjoy the fullest control and responsive handling even with fast cornering or quick changes of direction.

EXCITING SPORTS CAR FEELING. REINTERPRETED.

The new 840i engine of the BMW 8 Series Convertible makes the heart of every sports car enthusiast beat faster from the very first contact. Thanks to the BMW TwinPower Turbo 6-cylinder petrol engine, the entire power of this elegant vehicle is unleashed when the accelerator pedal is briefly pressed, catapulting this exceptional vehicle forward. Extremely sprint-friendly and confident up to high rev ranges, this engine shows the purest form of all qualities that make a BMW engine so extraordinary. Depending on the selected driving experience mode, the experience extends from dynamic to maximum sporty – a characteristic feature that becomes an experience even for the ears thanks to the unique sound of the BMW TwinPower Turbo 6-cylinder petrol engine.

POWERFUL AND DYNAMIC – WITH REAR-WHEEL DRIVE.

If you're looking for a pure sports car experience, choose the rear-wheel drive version: This is the only model in the 8 Series to transmit all the thrust of its powerful engine to the rear axle. Thanks to a lower total weight and an optimised weight distribution, this uncompromisingly sporty drive variant also ensures an exciting maximum of performance and dynamics. CLASSY ROAD HOLDING IN EVERY SITUATION COMBINED WITH MAXIMUM FORWARD THRUST: THE BMW 840i DOMINATES EVERY STREET THAT IT TRAVELS ON.

EVERY TURN IS ANOTHER TRIUMPH:

The M Sport differential ensures that even with challenging changes of direction or on various surfaces, the engine power is optimally brought to the road. A permanent, continuously electronically controlled multi-disc lock, which was developed for motor sports, reduces any speed differences between the rear wheels and distributes the drive torque variably between them. Depending on the setting, this makes it possible to achieve a driving experience that covers the entire range from traction-oriented to maximum driving dynamics and sportiness – but ensures maximum driving pleasure in every respect.

THE INCOMPARABLY PURE EXPERIENCE OF A CLASSIC REAR-WHEEL DRIVE – IN THE BMW 840i CONVERTIBLE, IT BECOMES EVIDENT AS TO HOW MUCH ADRENALIN THIS TYPE OF DRIVE GENERATES.

ADRENALINE – BROUGHT INTO SHAPE:
THE M CARBON EXTERIOR PACKAGE.

Carbon-fibre in every detail: The exclusive M Carbon exterior package¹* adds numerous design elements made of carbon-fibre to the already standard integrated carbon core components of the BMW 8 Series Convertible – for a more thoroughbred sports car look that draws everyone's attention. With mirror caps, air intakes, lateral spoiler elements in the front bumper, a decorative element around the tailpipe trims and a visually sharpened diffuser, the BMW 8 Series Convertible reinforces its motorsport character not only visually, but also substantially.

PERFORMANCE IN THE SOUND: THE SPORT EXHAUST SYSTEM.

Performance that you see, feel – and hear: The Sport exhaust system surrounds the driver with a powerful and rich engine sound from two twin tailpipes, which are integrated harmoniously into the rear apron. A genuine racing atmosphere – audibly also for all those who see the BMW 8 Series Convertible passing by. Thanks to the exhaust valve mechanism*, the pure, robust V8 sound can be adjusted to the driver's request at the touch of a button.

SPORTINESS
THAT YOU SEE,
HEAR AND FEEL ON
EVERY DRIVE.

ALWAYS 1ST PLACE: M SPORT SEATS FOR DRIVER AND FRONT PASSENGER.

The multi-adjustable M Sport seats with bucket seat character¹ and partly integrated headrest provide excellent lateral support for you and your front passenger. In addition, the backrest width can be individually adjusted. Their special design with black M logo highlights the vehicle's athletic capabilities.

VISUAL HIGHLIGHT: THE AIR BREATHER.

The precisely elaborated Air Breathers in the front fenders serve as a starting point of a course of striking design lines. Their interaction creates a powerful surface play that traces the air flowing along the vehicle.
